

# Viewing New Compositions

---

**4 Week Class On-line includes, weekly pdf lessons and instructional video's. Interaction with instructor in on her Class blog, all information will be shared in one place. No need to sign up for other social media site.**

**Materials needed:** Sketchbook, magazines, glue sticks, jar of mat medium, scissors, baby wipes, watercolor paper, drawing tools, sandpaper wax paper.

**Class Description-** Abstract graphic collage design with viewfinder references

A few simple supplies will get you started and exploring new compositions after you make your own viewfinder. Keeping lessons simple to allowing you time to explore at your personal level. You will create a collage in your sketchbook each week with your viewfinder image. Week 4 will have you completing a final collage on a watercolor substrate. Some altering of magazine pages will be done by sanding and coating in preparation for your watercolor substrate. Class runs actually 5 weeks so everyone can finish up and post their work.

## **Points about this class**

- Using a viewfinder as inspirational platform or reference to explore abstract design.
- Using simple materials to learn and take risks in the creative process
- Listening intuitively to trust your choices
- Areas and time to practice, practice and practice some more.
- Witnessing you own process
- Knowing what you like and don't like and freely making those choices with confidence.
- Dissecting an image and reconstruction it to form new perspectives that aid in your compositions.

Believing in process seems to be fading out with all the instant gratification fed to us in our ever present technical world. Creating one piece of art is nice but what happens to a person when they repeatedly do something? Yes, they might get bore or they might push limits and boundaries and become really good in areas that they never would have if they only did one single act.

This class holds and shares simple basic skills for artists and creative souls. A good Craftsman hones and defines their craft making it look easy through the many hours of repeated practice. Not many are willing to go the extra mile or want to. But to understand composition and make it yours, you have to become familiar with it in ways you might not have with one quick painting session. As in life so in art....to know thyself stands true.

## **Price for 4 week On-line class \$95.00**
